# TOKYO UNLIKELY TO RISK ASSAULT

## Russia's Strong Resistance Keeps Japan On Fence

### Outcome Of Next Four Weeks Of Nazi-Soviet Struggle May Decide

**By LELAND STOWE**  
RANGOON, Sept. 29.—(CND)—Where Japan turns or strikes in the Far East will be determined to a large measure by developments on the Russian front before winter closes down. If the Russian army continues its magnificent resistance, if there is nothing resembling wholesale collapse along the Volga and Don rivers, then experienced observers in the Orient are convinced that the Japanese general staff will be most unlikely to risk an assault against Vladivostok during the winter. The outcome of the next four weeks of the Nazi-Soviet struggle may decide that.

The more you travel about the East, the closer Japan's present dilemma becomes. Japanese armies are all packed up but cannot make up their minds where to go next. Hitler may be anxious for Japan to attack eastern Siberia but so long as the Russians maintain a strong army

weilding an axe in pulling up a very well. There was one motorist who became a little riled at the idea of having to stop and attempt to crash through the blockade. He ended up in a ditch and had a lot of explaining to do for an

### RCMP officer, who suddenly appeared.

All in all, results of Sunday's maneuvers would show that Mr. and Mrs. Edmonton have become just a little lax in carrying their forms. One outpost reported 200 citizens without their cards. Another said that every second car stopped had to be checked up on the matter.

### MANY EXCUSES

Excuses for not carrying cards were many and varied. Leaving them in other suits or purses was the most common. One woman told a guard that she was returning from church and never took her registration card to that sacred establishment. A couple of sweet young things on bicycles were wearing slacks without pockets. "So gosh, how could I carry a card?"

Odder case was that of a woman who took out of her purse a very fancy card holder.

### she undid the zipper with a

four and promptly handed the slip over to the guard for inspection. She was a little mortified when the guard placed a blank look on his face and handed the card back to her. She discovered that for the past few months she's been carrying a receipt for the sale of hogs she thinks she must have filed the registration card at home, by mistake.

Several citizens were worried about having to go to jail and offered to go right home for their cards if they could be excused a minute.

Li-Col. E. Brown, M.M. E.D., barron commandant, had to stop his familiar blue sedan at least 50 times during the afternoon as he, with Mrs. Brown, carried out an informal inspection of all posts. He appeared well satisfied with the afternoon's work.

Capt. A. G. Jacobs, general staff officer No. 3 from M.D. 13 head-

### quarters, Calgary, who was in Ed-

monton to inspect the maneuvers, said the units performed their duties well. "All posts did a good job," he said, "and I believe their training at Soreau Camp this summer helped them a great deal."

Late in the afternoon, units were kept busy taking away their barricades of trees, logs, farm wagons and what have you. Officers and men seemed to get quite a "kick" out of their work. And they proved one thing: Registration cards weren't issued to be left at home. They are meant to be carried.

### Cotton Subsidy

WASHINGTON, Sept. 29.—(AP)—The agriculture department announced Saturday it would make a direct subsidy of two and a half cents a pound on United States cotton exported to Canada, in an effort to increase exports of the United States crop.

### Liberals Will Organize, Then Select Leader

and it would seem that, while we should try to keep our various organizations in active existence, the most useful way in which we can serve the country and the cause of Liberalism at the present time, is to study the vast problems of social and economic reconstruction which are bound to arise after the war and to try to direct the right Liberal policy for dealing with those problems.

The meeting directed much of its attention to the question of provincial leadership and of a provincial organization. A resolution moved by C. Gerald O'Connor, K.C., Edmonton, that a convention be called for the third Friday of June, 1942 for the selection of a leader, was amended and in its place, the meeting adopted the following:

### PRIME MINISTER SUPPORTED

The members of the General Council of the Alberta Liberal Association assembled in annual meeting, directed the executive of the association to proceed with the organization of the constitutional preparatory to a convention for the election of a provincial Liberal leader. The sixth convention to be decided by the executive as to the most opportune time considering the results of the organization of the constituencies and the war situation.

Several other resolutions were also passed.

Leadership of Rt. Hon. W. L. Mackenzie King, prime minister of Canada, was endorsed in a resolution which said: "We, the members of the General Council of the Alberta Liberal Association, assembled in annual meeting with pleasure and pride most heartily endorse the leadership of the Rt. Hon. William Lyon Mackenzie King and desire to express our sincere appreciation of the efforts of him and his government in the prosecution of the war his effort in connection with the Hyde Park agreement for the immediate aid to Great Britain by the pooling of the resources of Canada and the United States in the prosecution of the war; the Ogdensburg agreement, a plan for the common defence of the Western Hemisphere and the promotion of international goodwill and understanding between the United Kingdom, the United States and the other countries of the world."

### MINISTER ENDORSED

Another resolution endorsed Hon. James A. MacKinnon, minister of trade and commerce. The terms of this motion were: "Resolved, that we, the council of the Alberta Liberal Association, in annual general meeting assembled, do hereby express our whole-hearted confidence in and loyalty to the federal minister for Alberta, the Hon. J. A. MacKinnon, minister of trade and commerce; we recognize the great importance to Canada of his present mission to South America and extend to him our best wishes for his success."

The meeting also passed a resolution instructing the executive to "study the social and economic needs of the people of Alberta and to appoint a province-wide committee to assist the executive and also to prepare a sound, progressive program to advance the welfare of our people, for consideration by this council and a Liberal convention."

The incoming executive was instructed, by way of resolution, "to set up an agricultural committee to consider the future wheat, livestock marketing and agricultural policies as affecting Alberta."

### NEW EXECUTIVE

The meeting also elected a new provincial executive, which is the central body for all Alberta Liberal organizations, both Dominion and provincial.

Officers elected were as follows: Honorary president, Rt. Hon. W. L. Mackenzie King and Hon. James A. MacKinnon; president, Hugh J. Montgomery, Wetaskiwin; vice-president, C. F. Ford, K.C., Calgary; secretary, George J. Bryan, Edmonton; treasurer, A. Steddie, Three Hills; northern vice-president, E. G. Grant, Peace River; and S. O'Brien, Barrhead; central vice-president, Walter, Russell, Viking; and Mrs. Paul Ragan, Edmonton; southern vice-president, Mr. C. G. Grant, Rockyford; A. B. Clapton, Swanton; Mrs. J. P. # Looking Over

No matter how immaculate a sport writer may be, there is one custom he never can quite break away from and that is making a forecast on the result of a world heavyweight title fight and the world series. Tonight's engagement between Louis and Nova is a piece of much interesting as the sport writing fraternity has not had to hazard a forecast on for many years in the heavyweight division.

Without benefit of the crystal ball that the profession generally relies on such a quandary, it looks to me like a fight that either Louis or Nova is quite capable of winning. If I felt I couldn't afford taking any unnecessary chances with my currency, I'd put a few bucks on the Nova as the safest bet. On the other hand, if I had a few shillings to play with, the odds offered on Nova are very attractive.

Both Joe and Lou are powerful men who can bowl over anything they can hit squarely—put office excepted. The first one to get the other a couple of wallops under full power on a vital spot early in a round, is almost certain to win. Luck may have a lot to do with it. The importance of getting in these blows early in a round lies in the fact that both men are apparently in good enough condition to pretty well throw off the effects of such blows during the one minute rest period if they can save themselves for a few seconds until the bell by covering up and hanging on.

## Will His Feet Track Right?

The one thing about Nova that is a definite weakness is his tendency to get his feet into an off-balance position once in a while. If he ever gets into the way he calls his "quarter to three" stance, he'll be as clumsy as a lamp post for a second or so and that is all Nova should need to finish the job.

On the other hand, if Nova keeps his feet tracking the way a fighter's should and maintains a reasonably effective defence, then Louis is in for a mighty tough night. Joe is likely to get bogged harder and more often than he has since his first affair with Schmeling.

This Nova is a mighty smart laddish-bug, no mistake about that. The fact that a \$600,000 fight is expected tonight is largely the result of the cagey showmanship he has used in building up his title bid. But of course doesn't prove that he is a major talent in the ring, but it at least proves that all his brain cells are working... a piece of evidence that many previous challengers were unable to produce.

## Don't Let This Influence You

REPORTS of Louis having slipped badly from his peak form of a year R or two ago do not impress me very much. The colored man never lost his physical power much longer than the white man does and Louis has been greeted by experts second to none. He leads a moderate and healthy life and has been fighting so regularly that he can't be much off peak power.

Both champion and challenger seem to have plenty of incentive to win and be in the irritable state of mind that is the hall mark of the fighter right on edge. Louis wants the distinction of going into the U.S. army as the champion of the world—something that has never occurred before. I have an idea this means more to him right now than a handful of thousand-dollar bills. Nova is a hungry fighter shelling at financial security for life that winning the championship is almost certain to bring him. He'll give everything he has.

## Roll Call Of .400 Hitters

WHEN Ted Williams of Boston, finished the American League season on Sunday with a batting average of .406, he became the 131st major league player of all time to achieve that honor.

Here are the others: American League—Heilmann, Detroit, .400 in 1925; Suter, St. Louis, .400 in 1922; Lajoie, Philadelphia, .406 in 1907; Ty Cobb, Detroit, .400 in 1911 and .410 in 1912; National League—Terry, Giants, .400 in 1930; Rogers Hornsby, St. Louis, .400 in 1922, .403 in 1925, .424 in 1924; E. Dabany, Philadelphia, .400 in 1909; Keller, Baltimore, .402 in 1897; Burdett, Cleveland, .410 in 1896 and .420 in 1895; Duffy, Boston, .408 in 1894; Anson, Chicago, .421 in 1887, when bats on balls counted as hits, and .407 in 1879; Baser, Chicago, .404 in 1874.

**Welders Defeat Poderskys 5-3 In Final Softball Game**

Writing fins to a successful softball season, Medico-Welders defeated Podersky Furniture 5-3 at Kingsway park on Sunday afternoon in a sudden-death game for the Motor Car Supply Cup.

Yesterday's win gave the Welders their third consecutive title, having previously captured both Alberta intermediate and senior honors.

Poderskys put up a real battle, but the Welders' defense was too strong. They collected eight hits as against their opponents' nine.

The central figure in last year's widely publicized "five down" incident in the Dartmouth-Cornell game, Friesel suffered a fracture of the left leg during the first quarter of the National Professional Football League game between Brooklyn Dodgers and Philadelphia Eagles.

Friesel was accidentally hit by a Brooklyn player.

# Junior Grid Leaders Finally Beaten Athletic Club Stops Maple Leafs 8-0

## Spitfires Play E.A.C. Tomorrow

Edmonton Athletic Club upset Maple Leafs 8-0 at Clarke Stadium on Saturday night in a scheduled City Junior Football League game. It was the first reverse for the loopy leaders and incidentally it was the initial win for the Club-men.

The final of the regular nine-game schedule will be played tomorrow night at 8:30 p.m., with the South Side Spitfires and the E.A.C. clashing for the third time. A victory for the Erie Stevens coached crew will earn them a tie for second place.

The Leafs are well fortified in the matter of reserves and Tommy Hayes, mentor for the club, tried a bit of an experiment when his starting lineup included seven boys who had not previously this season had an opportunity to display their football prowess.

The newcomers held their fire until the fourth quarter, but it was hoped that the E.A.C. players would be played out by the time the Leafs' reserves came in. The Leafs were able to hold their own in the first half, but in the second half they were completely out of their minds.

Williams Finishes Season With .406 Batting Mark

NEW YORK, Sept. 26.—(AP)—New batting champions for each major league were crowned today on the basis of unofficial averages for the full season.

These figures put lanky Ted Williams of Boston at .406 at the head of the American League parade with an average of .406—first over .400 in either league since Bill Terry posted the senior circuit with .401 in 1930 and first in the American since Harry Heilmann hit .400 for Detroit in 1925.

The National League was two-guns Pete Reiser of the champion Brooklyn Dodgers, with .345.

During the season Williams batted in 129 runs, scored 125 and walked 131 times. He struck out 26 times.

He is the fifth American League player to hit .400.

Lajoie, Cobb, Suter and Heilmann were the others.

Win Eastern Grid Openers

TORONTO, Sept. 26.—(CP)—Ottawa Rough Riders, rulers of eastern Canadian football last season, got off to the right kind of a start for a repeat performance this season when they drubbed Montreal Bulldogs 18-5 Saturday in an Eastern Canadian Rugby Football Union game at Ottawa.

While the highly touted Balmy Beach squad dropped a 9-6 decision to Toronto Argonauts in the other opening game in the E.R.U.

Meanwhile the newly-organized Kitchener-Waterloo Panthers abashed a 24-6 whipping at the Toronto Bombers.

## DEPARTMENT ANNOUNCES NEW PLAN

# Student Teachers Will Be Used For School Shortage

## Associations Who Care For Orphaned Children Part Community Chest

They care for the orphaned.  
While the Canadian men and women of today are putting their shoulders to the wheel, in the battle to defend our way of life, there can be no letting up in the care and guidance of the children who will take over the nation's tasks in the years to come.

### Banker Here

Some children are fortunate enough to have a comfortable home, kind and thoughtful fathers and mothers, and the steady influence of an assured future. Other children are in a less happy situation. Lacking the attention and presence of one, or perhaps both parents, some youngsters find themselves in most unencouraging situations, fighting with the knowledge that there is no one to turn to for help and confidence.

Public homes for children, which have been in operation for a good number of years are the Alberta Protestant Home for Children, the Good Shepherd Home, the O'Connell Institute, St. Mary's Home, the Franciscan Sisters of the Atonement—all institutions which have been serving well and effectively in caring for children without parents.

These organizations form one group of the Community Chest of Edmonton which will open its appeal for funds on Monday. It is the only appeal to be made for next year's operating funds, by the Chest which comprises 28 social organizations, working in Edmonton are asked to contribute at least \$60,000, is the minimum required for a year's operation.

### ONE OF APPEALS

The Alberta Protestant Home for Children is operated by the Orange Association in Alberta and has four orphaned children in its charge of the sisters of Roman Catholic religious orders.

At each of the homes, the children live in comfort, are given adequate and health-giving food, are given sound training and worthwhile instruction.

Government wards, orphaned and delinquent children are taken care of in the homes which are conducted by staffs experienced in the care of the boys and girls, and also given the help of clubs and organizations well aware of the necessity of giving the children all possible assistance.

These organizations form one group of the Community Chest of Edmonton which will open its appeal for funds on Monday. It is the only appeal to be made for next year's operating funds, by the Chest which comprises 28 social organizations, working in Edmonton are asked to contribute at least \$60,000, is the minimum required for a year's operation.

While here in conference with Frank Pike, retiring manager of the main branch here, who vacates his office Tuesday, and Thomas Dickson, Mr. Pike's successor.

Mr. Dodds had no comments to make on the present situation and prospects. He felt the bank's practice to make an exhaustive study of conditions and issue its findings in its published report at the annual meeting of shareholders in December.

En route to British Columbia, Mr. Dodds flew to Chicago and San Francisco, where the bank has operated branches for many years. Mr. Dodds and his party will leave the city tonight for Calgary to attend a meeting of the bank's branch managers and other officials.

# 'For Where Two Or Three Gathered' . . . Millions For Defence. . . Hurricane Lashes Texas

Sun and bombs blaze down on besieged British at Tobruk, but anti-aircraft crew holds church services in the desert as their gun points skyward ready for action.

The U.S.S. Massachusetts, Uncle Sam's newest 35,000-ton super-battleship, makes a \$75,000,000 dent in the water as it slides off the ways at the Bethlehem shipbuilding Co.'s yards at Quincy, Mass. Seventy-five thousand people thronged to see Mrs. Charles Francis Adams, wife of the former Secretary of the U.S. Navy, christen the ship.

Giant waves dash against Galveston, Texas' famed boulevard sea wall, in the path of the hurricane which swirled across the Gulf of Mexico toward the Texas and Louisiana coasts. Wind velocity in its center was estimated at 90 miles an hour.

## Leningrad's Future May Lie In Its Youth

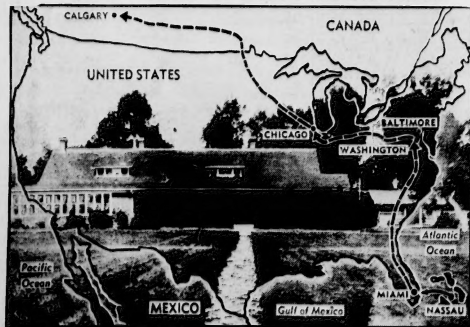

Youths of the Leningrad metal works learn the art of bayonet fighting and how to surmount barriers after working hours. At any moment, says the Moscow censorship-approved caption, the young patriots are ready to join the ranks of the Soviet country in the defence of beleaguered Leningrad. One youth clears a fence while the others look on.

## S.S. Rapids Prince Grounded Again

Held fast on the rocks of the Lachine Rapids for several weeks, the S.S. Rapids Prince was freed for a brief time by salvage workers only to slide back on the treacherous reefs again after being moved 1,200 feet. Salvage crews are planning another attempt to refloat the vessel.

## Windsors' Route To Duke's Alberta Ranch

This is the 5,600-mile vacation trail the Duke and Duchess of Windsor are following from the Bahamas governor's house at Nassau to their ranch at High River, main buildings of which are pictured.

## A Peek At The Crest

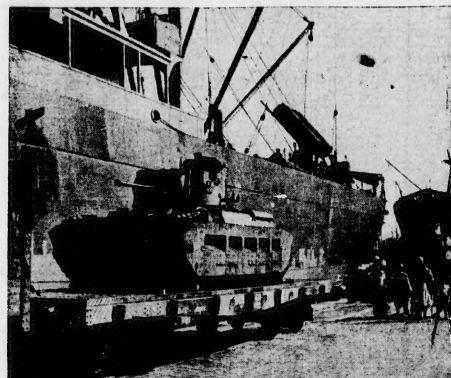

Commander Wynne Edwin Baxter of the British cruiser H.M.S. Orion poses beside the crest of his ship, now in for repairs at the Mare Island Navy Yard in California.

## A Common Cause

Lee Ya Ching, noted Chinese aviatrix, is greeted in New York on arrival in plane in which she toured several cities. Plane will be auctioned for United China Relief.

## Britain Bolsters Suez

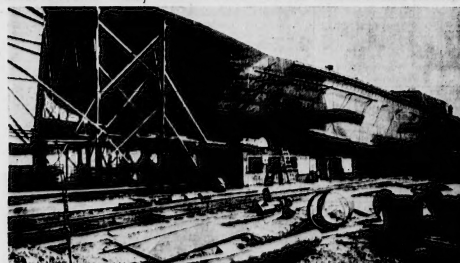

With Hitler's armies threatening all of Europe, England is making ready for the day when his hordes attempt invasion of Suez area. Above, at Middle East port, British tanks are unloaded from vessels that arrived laden to the gunwales with weapons of war.

## Here's U.S. Two-Ocean Navy

United States' two-ocean navy already is afloat in miniature at the Los Angeles County Fair. Aircraft worker H. Alan Lemon (above) displays his tiny vessels, more than 800 of them, which were exhibited to show how future U.S. fleet will look.

## "Sea Otters" May Prove Answer To Submarine Menace

Hull of the first "Sea Otter" type freighter is pictured ready for launching. The "Sea Otter" is a new type of cargo ship designed along revolutionary lines. Flat-bottomed and powered by standard gasoline automobile engine—the latter feature will enable the United States to turn productive capacity of automobile factories to winning the Battle of the Atlantic. A new government corporation, "Ships, Inc.," is being formed to supervise mass production.
